2025 DONORS

In 2025, the Scott Hazelrigg Student Success Fund was established thanks to the extraordinary generosity of donors who contributed nearly \$900,000 to launch the fund. Created with a clear directive, the Fund provides structured, sustainable resources to address critical needs that were previously met informally.

While specific needs may change from year to year, a portion of the Fund is invested to ensure long-term growth. This approach allows each gift to be leveraged over time, generating annual support for students, alumni, and staff. These resources help individuals stay on track for high school graduation, pursue post-secondary education, and achieve successful employment outcomes.
